City Directory
MASTER EDITION

VOLUME 38

1960

NELSONS' NO. 1319

CONTAINING AN ALPHABETICAL DIRECTORY OF ALL RESIDENTS 16 YEARS OF AGE AND OVER, WITH DETAILED INFORMATION CONCERNING EACH; A NUMERICAL HOUSEHOLDERS' DIRECTORY AND STREET GUIDE; A CLASSIFIED BUSINESS DIRECTORY WITH SPECIAL LISTINGS FOR NATIONALLY ADVERTISED BRANDS, AND A COMPLETE BUYERS' GUIDE, CIVIC SECTION, A NUMERICAL TELEPHONE DIRECTORY AND A RURAL ROUTE

Issued with a special supplement edition for presentation to a selected group of private homes, Chambers of Commerce, Boards of Trade, Merchants' Associations, Selling Agents, Buyers, Government Officials and Newspapers throughout the United States.

This directory remains the property of the Nelsons' Directory Company, Inc., and is leased to subscriber for a period of two years or until the next edition of the directory is published. This directory is leased for use of only one subscriber, unless different arrangements are made with publisher. Directory must be returned to publisher at the expiration of the lease.

Compiled and Published By

NELSONS' DIRECTORY COMPANY, INC.

Home Office:
125 MEETING STREET, CHARLESTON 5, SOUTH CAROLINA

INDEPENDENT AND PROGRESSIVE

Nelsons' Directory Company, Inc., publishers of this city directory and the world's largest independent publishers of city directories, is in no way connected with any national association or directory "trust." Its policies are laid down with a view to serving the individual directory subscriber and the general public. It is a progressive company, constantly on the alert to improve its service.

The LARN type of city directory was originated by Nelsons' Directory Company, Inc. While many publishers have been content to rest on their laurels, issuing the same type of directory used 50 years ago, the Nelsons' organization has led the way to the production of a modern city directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future, as in the past, Nelsons' directories will stand for the highest ideals in public service.

POPULATION OF METROPOLITAN SALISBURY, NORTH CAROLINA

41,014

As Of May 27, 1960

This population secured by an actual count of persons residing in
territory covered by a House-to-House Canvass
under Nelsons' Modern LARN plan.

INTRODUCTION

Nelsons' Directory Company, Inc., publishers of your city directory, takes pleasure in presenting the 1960 edition to the general public. A large force of trained enumerators and solicitors worked diligently in the preparation of this volume and we are confident that the result is an authentic and useful city directory.

We have faith in the continued growth of your city and we believe that our directory will take its place as one of the vital instruments for the advancement of your community. Subsequent editions will be issued promptly and regularly.

This volume is an example of the LARN type of city directory as originated and developed by the Nelsons' Directory Company, Inc. In the modern business world with its greatly changed sales and credit systems, the old type of directory has become completely obsolete. In adapting the directory to modern conditions the Nelsons' organization is the pioneer. The excellent city directory which your city now has is the result of the progressive spirit of this company and its accurate interpretation of modern business requirements.

FIVE DIVISIONS OF THE BOOK

The principal parts of Nelsons' Directory are as follows:

1. **The Buyers' Guide and Business Directory Section** contains the names of all business firms, industrial plants and professional men and women. Also shown in this section are display advertisements and professional cards, arranged in alphabetical order under their properly classified business headings. In addition to the above, the names of nationally advertised brands and trademark articles with the name and address of the local distributor, or agent, are listed. It also contains the announcements of churches, schools, clubs, lodges, associations and other civic institutions.

2. **The Resident Directory** contains most of the data concerning the individual. The wife's name is given in parenthesis, and the number of dependents under 16 is shown as well as the ownership of homes. This is followed by position, place of employment and home address.

3. **The Householders' Directory** contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property.

4. **Rural Route Directory** contains names of all rural residents.

5. **Numerical Telephone Directory** contains telephone numbers arranged in numerical sequence.

SPECIAL LARN FEATURES

The following valuable information which appears in the LARN type of directory is not to be found in the old-style city directory:

Number of dependents under sixteen

Designation of home ownership

Designation of Race

Nationally Advertised Brands

Telephone Numbers on Street Guide

Telephone Numbers in Numerical Sequence

Rural Routes

Number of people in each house or apartment shown on Street Guide.

In addition to these valuable features, the LARN type of directory is more conservatively styled, printed on better paper and more beautifully bound, arranged for more convenient use and contains a much more complete civic section.

THE HOUSEHOLDERS' SUPPLEMENT

After including every conceivable feature which would tend to make the directory as useful and attractive as possible, the originators of the LARN type of directory made one more bold stroke—they established a guaranteed HOME circulation for advertising matter by issuing the Householders' Supplement and mailing it to the homes of the community. Every advertisement which appears in a Nelsons' Directory also appears in the Householders' Supplement, making the Nelsons' Directory "America's greatest dollar-for-dollar advertising medium today."

NELSONS' DIRECTORY CO., INC.

EXPLANATION

All people sixteen years or over are listed.

Wives are listed with husbands, the wife being shown in parenthesis as follows: Smith Robt R (Mary L).

The number of children under sixteen years is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

The ® both in the resident directory and the householders' directory designates ownership of the home.

In case of a natural widow this fact is shown with the name of the deceased husband in parenthesis, when possible, as follows: Smith Mary L (wid Robt R).

The occupation and place of employment are shown as follows: Smith Robert R (Mary L) clk Hub Clothing Co.

The residence of each person is shown "h" denoting a householder or head of the family, "r" denoting people in the home.

Married women, engaged in some other occupation than housekeeping, are listed individually in addition to their regular listing with their husbands, as follows: Smith Mary (Mrs Robt R) bkpr Henry Jones & Co r 210 Main.

Names in heavy type denote patrons of the directory and are usually the leading firms in each line of business.

Colored is shown by a ©. The publishers are very careful in using this, but do not assume any responsibility in case of error.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher in the United States.

The classified business directory lists each firm according to line of business.

The numerical street directory lists each street alphabetically and each house according to number, with the street intersections as they appear. After each householder's name will be found his telephone number. In case he has no telephone the nearest telephone may be found. The ® denotes householders who own the houses in which they live. By using the street guide as a mailing list, a thorough coverage of the city will be obtained without any duplication of names.

The buyers' guide carries the printed messages of the city's leading business and professional firms arranged alphabetically according to classifications.

This directory shows the approximate population and environs at the present time.

NELSONS' DIRECTORY COMPANY, Inc.

Salisbury

North Carolina

Salisbury, in Rowan County, North Carolina, is one of the South's oldest cities, freshened with new spirit, services and facilities.

In the period since 1950 twenty-five new industrial plants have begun operation in the city and county. These diversified payrolls include asphaltic products, air conditioning, fine furniture, light weight building aggregates, metal awnings, children's garments, luggage, upholstered furniture, Hi-Fi cabinets, equipment for the ceramics industry, boxes, swimwear, blouses, clay products, bottlers appliances, custom hydraulics, textile machinery and others.

The large VA Hospital activated in 1955 will soon be operating at capacity, and its \$2.9 million annual payroll has helped stabilize the community economy.

Important national highway developments through Rowan County add value to the Salisbury area for manufacturing and distribution location as does its modern paved airport with

runway extending nearly one mile. Feeder airline service is being solicited. A \$10,000,000 industrial development survey was performed for Salisbury and Rowan County by prominent New York-Chicago engineers who specialize in plant location. The city and country are co-operating in connection with a Planning Board to assist in logical expansion of population, housing and industry in and around Salisbury.

Salisbury has recently won trophies and cash awards for outstanding progress in civic improvements and social advancement programs. New developments in the shopping area include new department stores, large parking lots, new shopping center, and modernizations among several retail firms and services.

With all the natural advantages of Piedmont location, access to utilities, non-defense working population, plus great improvement on every front, Salisbury and Rowan County, offers one of the best communities in the nation for growth opportunities.

"Salisbury Is The Place . . .

Where Location Pays An Extra Dividend."

ROWAN COUNTY COURT HOUSE

HISTORY

Salisbury and Rowan County share in the earliest history of this progressive state and it is a history that the descendants of the earliest settlers and the people of today may well be proud to tell the world. The County was first settled in 1720 by Protestants from Moravia and a few years later, Scotch and Irish migrated here from their mother country. These were later followed in 1745 by a steady flow of Germans.

The County of Rowan was established at the session of the general assembly of the province of North Carolina on March 27, 1753. Thirty counties in Western North Carolina were later formed from Rowan County. The first Court—the Court of Pleas and Quarter Sessions—met in Rowan in 1753, the same year of the organization of the county. The first court house was erected in 1756 and old records dating back as far as 1750 are still in file in the office of the register of deeds. The deed for Salisbury Township was granted February 11, 1755, and it is a point of interest to note that as early as 1757 Salisbury boasted of traffic laws.

Salisbury and Rowan County were especially active during the Revolutionary War and in 1781 Lord Cornwallis made temporary headquarters here. General Nathaniel Greene occupied Salisbury immediately before the arrival of Cornwallis' army. In the spring of 1791 George Washington visited Salisbury.

Near Salisbury today stands the remains of one of the South's most outstanding relics—"The Old Stone House"—a large building constructed of native granite, built somewhat in the style of a fort, and occupied by Michael

Braun, the forerunner of many of the Browns in the city today.

A national cemetery is located in Salisbury in which Federal soldiers held prisoners by the Confederacy here, Spanish American War veterans and World War veterans are buried.

"Boone's Cave," where the pioneer Daniel Boone sought refuge from the Indians, is located north of the city near the Yadkin River and "Old Trading Ford" on the Yadkin River, established before the Declaration of Independence, is also north of the city.

West of Salisbury, in the graveyard of the Old Third Creek Presbyterian Church, is the modest grave of Peter Stuart Ney, well-known school teacher who came to this country from France and is believed by many to be Marshal Ney, Napoleon's "right hand" man. He was supposed to have been executed for treason to Louis XVII of France, but many believe he escaped through connivance with the firing squad and then came to this country, taking up residence in North Carolina.

Andrew Jackson, at one time President of the United States, studied law in this city.

The mother of James K Polk, eleventh President of the United States, was born and reared in Rowan County.

The Rowan Museum, 116 South Jackson Street, contains many items of great historical significance, tastefully arranged for convenient viewing. It is open to the public.

The Rowan Memorial Library on West Fisher Street has a wealth of records and books dating back to the very early days of Rowan County. These data are efficiently catalogued and frequently used by many geneologists and historians.

GOVERNMENT

Since 1927 the city has operated under a City Council-Manager form of government. The Council is composed of five members elected at large. The Council elects a mayor from its own membership and appoints the City Manager, who is the administrative head of the city.

Salisbury has a municipal water system ample to supply pure water to care for the

city's needs; a modern sewer system and disposal plant; efficient police department with every modern facility for the detection and prevention of crime.

The fire department has long been a source of pride to the city and through its efficiency has compiled throughout the past number of years an enviable record.

Salisbury and Rowan County has a well-organized health department, ranking among the best in the South, and now centered on W. Innes Street in a modern \$285,000 building.

INDUSTRIAL

The fact that Salisbury Rowan is a manufacturing community of importance is evidenced by the presence of more than 111 diversified industries located here, manufacturing a very wide variety of products and giving employment to approximately 17,500 employees with a total annual payroll of approximately \$70,000,000.

Salisbury businesses have a highly diversified industrial structure. Soaps, combed yarns, cotton battings, shirting, furniture, wash cloths, rubber rolls, hosiery, rubber hose, rubber printing plates, lumber and millwork, florists' supplies, packing plant products, flour and feeds, paving blocks, building ceramics, refrigeration equipment, beverage syrups, proprietary medicines, bakery products, castings and machine durable goods, printing and publishing, building and monumental granites, cotton and rayon finishing, and many other products and types of business help to make a rich industrial and commercial community.

Balfour Pink Granite, recognized as the hardest granite obtainable, is said to be quarried exclusively near Salisbury and has been used in the construction of monuments and buildings throughout the world.

Salisbury is located at the center of the immense system of the Duke Power Company (including power dams and steam plants), which provides practically an unlimited source of power at exceptionally low rates. Anticipating demands for increased power in this area, the capacity of the Buck Stream plant has been increased to 460,000 KW, largest in the system today.

AGRICULTURAL

Rowan County has 272,591 acres of land in farms, (1949). The State estimates that there are 16,872 people living on Rowan land tracts of three or more acres. Farming is highly mechanized, and crop diversification shows a modern conception of best methods. Dairying is a principal activity, supported by small grains and cover crops. Growing season range is favorable, soil structure and moisture shows desirable characteristics, and weather extremes are rarely prolonged. Rowan leads the South in the growing of Lespedeza and leads the South in the production of wheat crop, including acreage and yield. Rural highways are rapidly being surfaced, homes in the county are modern, and equipped with lights and telephone.

DISTRIBUTION

Probably no city in the South has better distribution facilities than Salisbury. The Spencer Transfer, the largest freight transfer terminal south of Philadelphia, is located at the Southern Railway's plant, where merchandise is assembled from all over Piedmont North Carolina, unloaded and reloaded into through-package cars and trains going to the principal commercial centers of the United States.

Exceptional facilities are offered by motor express service. Modern well-paved highways radiating in all directions give additional weight to Salisbury's claim as a distributing center and afford speedy motor express service to all points.

ONE OF SALISBURY'S NEWEST INDUSTRIAL PLANTS, CAROLINA FORGE, INC., LOCATED ON INTERSTATE 85.

CATAWBA COLLEGE LIBRARY

EDUCATIONAL

Salisbury's educational facilities are of the best and most modern, having five white public schools, including a high school, and three Negro schools, including a high school. Other educational institutions include: Catawba College, fully credited by the Southern Association of Colleges and Secondary Schools, offering a full four-year course in Liberal Arts. The Salisbury Business College, which provides excellent commercial and secretarial training, also the Salisbury Commercial College. Livingstone College (Southern Association Class A) offers Negro citizens a four-year curriculum. \$4,000,000 is being spent to modernize the local school system.

The Rowan County Public Library, located in Salisbury, has experienced a steady growth in recent years and under the guiding hand of a capable librarian this institution is rendering a great service to Salisbury and Rowan County. The library facilities are widely used.

A new community library, located at the corner of Church and Fisher Streets, provides a new home for the center's excellent library service, and the new facility includes meeting room space for civic and arts groups. A new \$100,000 library has been built for our Negro citizens, also.

CIVIC AND FRATERNAL ORGANIZATIONS

Many of the leading fraternal organizations are represented by strong local chapters.

Civic organizations include: Rotary, Kiwanis, Civitan, Lions, and Altrusa Clubs. American Legion and Auxiliary, Woman's Club, Junior Woman's Club, Merchants Association and Chambers of Commerce.

RADIO—NEWSPAPER—TELEVISION

WSTP am/fm (MBS) and WSAT (ABC)) are the community's aggressive commercial radio services. THE SALISBURY EVENING POST, published as an evening daily, and THE SALISBURY SUNDAY POST is one of the most modern newspapers in the country. Area television stations are received in the community. Radio communication systems are effectively used by city, county and state law enforcement officers in the local area.

CHURCHES

A lust of principal denominations is available at the Chamber of Commerce office, N. Main Street.

HOSPITALS

The new VA Hospital has been activated. Designed as a neuropsychiatric facility, the 1,128-bed hospital is located on a more than 450-acre site now incorporated into the Salisbury city limits, near the Statesville entrance to the city. Comprising nineteen buildings, the vast hospital plan is one of the most modern in the United States, and will serve North Carolina's 4,000,000 population—qualified veterans of this population. The faculty is expected to

RESIDENTIAL SECTION

serve the medical growth of Salisbury. The Rowan Memorial Hospital has undergone an expansion. The medical staff offers excellent qualification, and several specialized medical services are available. The Hospital participates in the Duke Endowment and offers many advantages not available elsewhere.

RECREATION

A planned recreation program in the Salisbury community is under professional direction of a paid staff, and some \$35,000 to \$40,000 is expended annually for these activities. An outstanding golf course is located at the Salisbury Country Club (membership basis). The city has five theatres, active college and school sports, swimming, fishing and boating at large High Rock Lake in the county; City Park and Mirror Lake for picnicing and varied games. Salisbury is near the Blue Ridge Mountains, and about two hundred miles from the Atlantic Coast. These resort areas are frequently utilized by Salisbury residents.

A \$533,000 modern "Y" center with outstanding health club and recreation facilities was opened recently at 220 N. Fulton. Visitors welcome.

THE NEW KNOX JUNIOR HIGH SCHOOL

HOTELS AND MOTELS

The Yadkin Hotel, 160 rooms, The Empire Hotel, 70 rooms, Ramblers Rest Motel, 22 units, Midway Court, 21 units are recommended for lodging. The city has modern restaurants and cafes and a \$490,000 72-unit Holiday Inn with swimming pool.

INFORMATION

For lists of manufacturers, information about retail shops and services, and general economic and historic data about the Salisbury community, visit or write the Chamber of Commerce, Community Building, North Main Street, Salisbury, North Carolina. (Telephone ME 3-4221.)

SALISBURY'S CITY GOVERNMENT

The City Council meets twice each month on the first and third Tuesdays. The meetings are held in the Council Meeting Room of the Municipal Building on West Kerr Street.

— ORGANIZATION —

The entire membership of the Council is elected every two years in a General Municipal Election. The Council members elect one of their number to serve as Mayor and one member to serve as Vice-Mayor.

The Board and Commissions appointed by the Mayor and City Council are made up of citizens who are willing to give their time and energy to the service of their community. These Board and Commission members deserve the wholehearted thanks of every Salisbury citizen.

The City Treasurer-Tax Collector and his staff collect and disburse about one and three-quarter million dollars each year. He and the members of his staff work very closely with the

THE WEST SIDE OF TOWN.

VETERANS ADMINISTRATION HOSPITAL WITH 1000 BEDS.

City Manager and the City Attorney in matters pertaining to the collection of overdue taxes and licenses, and in the temporary investment of funds that are to be used at some later date.

As taxes and other income is collected, it is apportioned and deposited to the funds from which it is later to be disbursed.

The City deposits its money in all of the local banks. Separate accounts are set up in most instances. When it is apparent that a certain amount will not be needed for several months, that sum is invested in U. S. Government Securities or Certificates of Deposits for three or six months. The interest received from the investment is added to the account from which the investment was made. The amount appears in the Annual Audit as surplus to be used in subsequent years.

New street construction continued at a very fast pace during 1959. A total of 11,468 linear feet (26 blocks) was paved with permanent-type pavement and with concrete curb and gutter. The new construction work is done with regular street forces with exception of the concrete curb and gutter. The concrete work is done by a contractor.

At the end of the year there was an additional 4,880 linear feet of new pavement under construction but not yet finished.

Older streets came in for attention too. Last year the City resurfaced and, in some instances, widened 5,462 linear feet of streets (12¾ blocks).

Plans are being made to extend Brenner Avenue across the tracks of the Southern Railroad near the Veterans Administration Hospital to provide easier access to the Southwestern part of the City. Electric gates and warning lights will be installed.

THE CITY'S PAVING POLICY

Petitions for paving signed by owners representing 75% of the front footage in a block will be accepted when those signing agree to pay for their concrete curb and gutter (\$1.60 per front foot). The balance of the frontage will be assessed against the property. Under a Special Act of the Legislature, the City Council may assess 100% of the paving cost to pave "connecting links" where existing paved streets are separated by a short distance of dirt street.

New residences topped the list of building permits issued during 1959. It is interesting to note that, while 51 new residences were being built, there were 31 old houses torn down. Most of those demolished were in Business Zones and their removal will make room for new business buildings.

All new construction and all repairs to old buildings must meet the requirements of the North Carolina State Building Code. Before starting any building, the owner is urged to visit the Building Inspector's office where his plans can be checked and approved.

The City of Salisbury has taken steps to qualify for Federal assistance in a proposed Urban Renewal Program. Better housing and elimination of slums will be the goal.

Urban Renewal will help eliminate those houses that are a tax burden on other property owners who must pay taxes to furnish the normal City services to such low value properties.

THE OLD COURT HOUSE of Rowan County, now used and known as the Community Building, was completed in the year of 1857. This building is one of the finest examples of pre-war architecture in the state and except for minor changes, such as the removal of a cupola, stands as it was erected. In April, 1865, Stoneman reached Salisbury on his famous march of destruction and gave orders for the destruction of the gracious building. Mr. T. J. Meroney interceded and at his plea General Stoneman permitted citizens to extinguish the small blaze which had just been set and did not re-order destruction of the building.

BUILDING PERMITS — FIVE YEAR PERIOD

1955 (367 Permits)	-----	\$1,543,875.00

The Salisbury-Spencer-Rowan County Planning Board holds regular meetings on the first Monday of each month. The Planning Board has contracted with the Division of Community Planning, North Carolina Department of Conservation and Development, to do several phases of an over-all Urban Plan. These phases include (1) Base Planning Maps, (2) Present Land Use Survey, (3) Population and Economic Study, ((4) Future Land Use Plan, and (5) a Central Business District Study.

ROWAN MUSEUM — Contains interesting examples of Federal Period Furniture and relics of Rowan's 200-year history. Free.

POST OFFICE BUILDING

The N. C. State Highway Commission will soon begin a comprehensive Thoroughfare Street Plan for Salisbury and adjacent area. Under a special contract the Census Bureau will conduct a Neighborhood Analysis along with the 1960 Decennial Census.

The Salisbury Zoning Commission normally meets on call of the Chairman to discuss requests for zoning changes and to zone property not previously zoned. The Commission consists of five members appointed by the Mayor and Council.

Zoning provides protection to property owners in that it provides assurance that a certain lot or tract of land will be used as intended under the Zoning Ordinance.

The Building Inspector administers the Zoning Law in the issuance of Building Permits for new structures and for alterations to existing structures. Appeal from his ruling is heard by the Zoning Board of Adjustment, a five-member Board also appointed by the Mayor and City Council.

Last year the Zoning Board of Adjustment heard six appeal cases.

Industries looking for new plant locations are quick to recognize the value of an abundant supply of good water. While other cities search for a source of water, the people of Salisbury rest assured that their requirements will be met now and in the years to come.

The raw water pumping station is located in the main channel of the Yadkin River just above the point where the river enters High Rock Lake. The water is pumped via dual water mains to a reservoir at Ellis Cross Roads, then it flows by gravity again through dual mains to the treatment plant on North Jackson Street.

The construction of the recently-authorized Wilkesboro Dam will be a further guarantee that Salisbury will have an abundant supply of water in the future.

Electric motors drive the raw water pumps and the service pumps. Last year the Water Department used 2,250,012 kilowatt hours of electricity. The electric power is furnished by the Duke Power Company.

A recent survey points out the need for larger distribution mains in several parts of the City and for additional connecting mains to assure maximum fire protection to all parts of the City. This work will continue during the coming year; a part of the recommended work will be done each year until it is completed. The total estimated cost for these improvements based on today's prices will run approximately \$390,000.00 with the work spread over the next twelve years.

Total Water Pumped, 1,206,767,000 gallons; Monthly Average, 100,563,916 gallons; Daily Amount Pumped, 3,306,210 gallons.

The water passes through sedimentation basins then through gravity sand filters. Chlorine is used to kill any infectious bacteria present. Lime is added to reduce acidity and to prevent corrosion. It also reduces the amount of soap needed for washing. Chemicals used, 1959: Aluminum Sulphate, 170,350 lbs.; Lime, 99,750 lbs.; Chlorine, 21,516 lbs.; Calgon, 16,425 lbs.; Sodium Fluoride, 5,400 lbs.

The City Recreation Program is designed to provide a variety of activities for each age group. For example, the Girls' Air Rifle Club is but one of 20 activities provided for that age group. The Annual Rose Show is a good example of the various cultured activities for adults. Other interests for adults would include

classes in ballroom dancing, art, ceramics, or interior decorating.

The very popular Retired Citizens' Club is one of the most active and enthusiastic groups of all. Membership is open to all retired people living in this area. The Club meets weekly on Tuesday.

For teen-age people the program provides dance parties, "coke" parties, and, of course, athletic activities, such as baseball.

The first "Soap-Box Derby" race held in many years was held last year under the sponsorship of several local firms and the two radio stations. More than 25 boys built and raced their cars in the race. The event was won by Alan Eudy before a crowd of two thousand people.

The total attendance at all activities supervised by the Recreation Director and his staff was well over 223,000 for the past twelve months. Funds for operating the entire program came from the City's share of ABC profits.

The Miller Recreation Center is located next to Price High School on West Bank Street, and the City Park Center is located in the City Park on Lake Drive at Fulton Street.

The City Lake and the City Park Recreation Area are becoming more popular each year. Family picnics are increasing in number as well as church and school picnics.

Children are especially drawn to the Lake where they enjoy feeding the ducks and geese that inhabit the Lake. At the present time an effort is being made to secure a pair of Swans.

One of the supervised play areas is located in the Park. These areas are equipped with slides, swings, merry-go-rounds, and other amusement devices.

SALISBURY

NORTH CAROLINA

"Where Exciting Progress Is Being Made"

1. DIVERSIFICATION

Salisbury enjoys a well diversified economy, striking a happy balance between industry and agriculture. More than 120 industries employ 19,250 people throughout the 517-square-mile area of the County. Fourteen populated communities totaling 81,815 (1960 Census) offer advantage of uncrowded living, yet quick access to plants and shopping facilities.

2. LOCATION

"Pivot of the Piedmont," Salisbury is situated mid-point between Charlotte and Winston-Salem on four important highways and two state routes. Southern Railway's freight assembly and distribution to national points from Spencer is the largest operation of its kind in the Southeast. A new commercial airport is now open at Salisbury.

3. LABOR SUPPLY

Recent studies of available workers in the Salisbury area have been made by the Employment Security Commission, and some 5500 people are considered employable for jobs. The entire community is interested in expansion of business and development of new commerce and industry.

4. CHURCHES

There are more than 80 churches in Rowan County, including Protestant, Jewish, Catholic, indicating keen interest of our people in religious values. An estimated \$4,000,000 or more has been recently spent on expanding and modernizing church and Sunday School facilities.

5. HOMES

Since World War II, housing has expanded rapidly in Rowan, and there are nearly 5,000 new homes in the community since 1950.

6. SCHOOLS

Thirty-six elementary schools, an excellent high school system, two colleges and two business colleges provide ideal educational opportunities. \$4,000,000 for new schools now being built.

7. NATURAL RESOURCES

Rowan County's \$110,000,000 annual economy is sustained by its diversified industries, its granite and clays, its transportation activities, its dairy farming, etc. Natural gas, unlimited electric power, river water, available sites, favorable climate . . . makes a most attractive picture.

DR. A. R. KEPPEL, President

Livingstone College

Salisbury, North Carolina

Livingstone College . .

the chief school of the A. M. E. Zion Church, is located in Salisbury, in the western part of North Carolina. Its position on the main line of the Southern Railroad makes it easily accessible from any direction.

This College was founded in 1879, opened its doors in Concord, N. C., in 1880, and moved to Salisbury in 1882. The illustrious Joseph Charles Price was the first president of the new College. The aim of the institution has from the beginning been to serve humanity and the Negro race by training young men and women for Christian leadership. During the seventy-eight years of its operation as a College, Livingstone has given to the Negro race and to the world some of the outstanding characters of the time. Many of the leaders in American life today are graduates of Livingstone College.

and the greatest of these is...

Character

A message to parents and educators on the need of Character-Forming as a Part of Every Child's Training

Character, Capacity and Capital are the three standards by which business men judge applicants for credit. And CHARACTER comes first.

For, a man may have Capital, plenty of money. He may have Capacity—the ability to earn more. But without Character—the willingness to pay promptly according to agreement—his promises are worthless. The man with character can be depended upon to keep his promises and meet his obligations.

Character is a child's heritage, strengthened by the example of the parent and the precept of the teacher during early years—the formative period.

Character is honor—a high sense of personal responsibility and respect for one's obligations. And every child has the right to be trained in the tenets of honesty and fairness in meeting his obligations. Otherwise his education is incomplete his chance for success is impaired.

Treat Your Credit as a Sacred Trust

Nothing Takes the Place of the News- paper in Every Day American Life...

Your
Newspaper
is always
right at
Hand to
Read and
Enjoy ---
Over and Over
Again if You
Wish --- and by
All the
Family!

No other medium is so constant and consistent in presenting every type of news . . . opinions, information and entertainment . . . public service, too. You listen to, and look at other media — but just leave the room — and you've "missed the score." Your newspaper is an ever-present reminder of what's "going on in the world" . . . in the nation . . . in the state . . . and in your "own backyard" — our own community. Make this paper — **YOUR** newspaper!

The POST

Read by more than 18,500 families
every day and Sunday, too!

RESIDENT DIRECTORY

1960

Containing the full name, husband and wife's name, number of children under 16, designation of home ownership, position and employer and home address of all persons over 16 years of age residing in this city and environs.

The publishers wish to express their appreciation to the business and professional establishments for the splendid cooperation and valuable assistance given them in preparation of this volume.

A list of abbreviations in this directory will be found on the following page. The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory, and checked with data supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

Number of dependents under 16 is indicated after name

NUMERICAL TELEPHONE DIRECTORY

1960

Containing a list of telephone subscribers arranged in numerical sequence. The information listed was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained herein.
